LIFE VALUES INVENTORY

An Assessment of Values that guides behavior and Decision making

SECTION I

Values are beliefs that influence people's behavior and decision-making. For example, if people believe that telling the truth is very important, they will try to be truthful when they deal with other people.

On the following pages is a list of beliefs that guides people's behavior ad helps them make important decisions. Read each one and then choose the response (1-5) that **best describes** how often the belief guides **your** behavior.

		Almost Never Guides My Behavior		Sometimes Guides My Behavior		Almost Always Guides My Behavior		
1.	Being healthy	1	2	3	4	5		

If a belief in being healthy almost never guides your behavior, circle 1. If being healthy almost always guides your behavior, circle 5. If the bet answer for you is between 1 and 5, circle the number 2,3, or 4 that **most accurately** describes how this belief guides your behavior.

Now you are ready to begin. Read each item carefully and circle only one response. Usually your first idea is the best indicator of how you feel. Answer every item. There are no right or wrong answers. Your choices should describe your own values, not the values of others.
