**3 Tips for Career Development**

Do you ever have one of those days where you think to yourself, "I love my job, but I wonder what more I can do?" Perhaps you had a great day, talking individually with a patient about a diet, which made you consider learning more about nutrition. Or, maybe, you were asked to give a group presentation on a topic, and you discovered that you like the idea of teaching. Whatever you decide to do, we are here to help you.

Here are 3 tips on how you can **take that next step and explore your own career possibilities:**

1. **Research** – Look at our website: bhmt.org. We have [tons of resources](#) that include links to careers, job families, and services. There is a good bet that your dream job exists within Kaiser!
2. **Network** – Once you have done your homework, go out and talk to people! Find out more about the job itself. Talk to your manager, people inside and outside of your department, and if you found the job description on KP Careers, try to seek out others actually doing the job.
3. **Education** – Finally, if you need further education to get that dream job, talk to your [BHMT Career Counselor](#). As a Union-Represented Employee, you can complete your degree, get a certification, or just skill up!
