**Choose a Career Goal That Makes You Come Alive!**

Happy 2018! Did you realize that pursuing a goal can make you feel more alive? That was the finding of *Greater Good Magazine* journalist Caroline Benner. Her research over the past two years revealed that individuals are likely to stick with a goal if it involves some or all of the following elements:

- **Positive emotions**
- **Engagement**
- **Social support** (tangible, informational, or emotional help)
- **Meaning** (a strong motivating factor)
- **Sense of accomplishment**

The start of a new year is an ideal time to reconsider your goals and plans, so why not? As a KP employee and UFCW member in Georgia, you can utilize the services, tools, and resources BHMT has to offer that can bring you one step closer to identifying your own career/education goals.
